

# Foreign Vehicle Permit System

Due to the increasing number of foreign registered vehicle in Thailand, Department of Land Transport has set out a measure requiring those who wish to use foreign vehicle to apply for foreign vehicle permit before entering Thailand. Through submitting your application, officials will review the concerning documents including vehicle registration, motor insurance and driver's license before giving approval. In this regards, the web application Foreign Vehicle Permit System (FVP) is launched in order to provide more accommodating channel for submitting application. Moreover, DLT FVP mobile application is also available on both iOS and Android platform. The application consists of various functions to assist foreign vehicle driver during their journey in Thailand such as related news, permitted areas or routes, map and emergency contact information.
